Honourable Brian Smith, Q.C.
Attorney General
VICTORIA, B.C.

SIR: I have the honour to lay before you a report of the business done
in pursuance of the Film Classification Branch during the fiscal year ended
December 31, 1983.

MARY-LOUISE McCAUSLAND

- Director

March 31, 1984

INTRODUCTION

The Motion Picture Act of 1979 is the authority under which this Branch operates. All pictures to be shown to the public must first be submitted to the Director for classification. The three categories of classification are GENERAL, MATURE and RESTRICTED. A warning indicating the possibly objectionable content of a film may be assigned as part of the classification.

The Annual Report of Film Classification is based on a calendar year. This year's report provides a five-year monthly and annual comparison for 1979 to 1983.

On March 16, 1983, a new experimental classification called 14 YEARS - LIMITED ADMISSION was introduced with the passing of the film Spring Break. Under this new category, those under the age of 14 years may not be permitted to attend a film with this classification unless accompanied by a responsible adult. Since March a total of 21 films have been passed with this classification.

The number of films viewed in 1983 decreased from 1982 due primarily to a drop in the number of arcade films submitted to this office.

The revenue has remained constant despite the decline in the number of films viewed. Revenue has been maintained by an increase in the number of licensed screens and advertising trailers.

American films have dominated the viewing time in the Film Classification Office in 1983 displacing films of Chinese origin which had prevailed for the previous 2 years.

I hope that you will find this report useful and informative.
